Summary

Motivated Information and Communication Technology student with hands-on experience in Full Stack Web Development, React.js, Node.js, MongoDB, and Flutter. Passionate about building scalable web and mobile applications. Seeking Software Developer or App Developer opportunities to apply technical skills and contribute to innovative projects.

Technical Skills

Programming Languages: C, C++, Python, JavaScript
Frontend: HTML5, CSS3, Bootstrap, React.js
Backend: Node.js, Express.js
Databases: MongoDB, MySQL
Tools & Platforms: Git, GitHub, VS Code, Postman, Firebase, AWS

Core Coursework: Object-Oriented Programming, Operating Systems, Database Management Systems, Data Structures & Algorithms, Software Engineering, Computer Networks, Cloud Computing

Education

Bachelor of Technology (Information and Communication Technology) 2024 – Present
Marwadi University, Rajkot
Diploma in Information and Communication Technology 2021 – 2024
Marwadi University, Rajkot

Experience

Software Development Intern — Keshav Infotech(2025)

- Developed and enhanced web application modules using modern development practices.
- Integrated REST APIs and improved application functionality.
- Performed debugging, testing, and issue resolution to improve software reliability.
- Collaborated with developers to implement new features and optimize performance.

Projects

Smart Cart Management System Source Code

- Engineered a full-stack e-commerce platform for product management, shopping cart, and order processing.
- Implemented secure authentication and role-based access control.
- Designed responsive user interfaces and integrated RESTful APIs.
- Optimized checkout workflows to improve user experience.
- **Tech Stack:** React.js, Node.js, Express.js, MongoDB

Quiz Application Source Code

- Created an interactive quiz platform supporting quiz creation and participation.
- Integrated automated score calculation and result generation.
- Designed a responsive and user-friendly interface.
- Enabled efficient assessment through real-time performance tracking.
- **Tech Stack:** React.js, Node.js, Express.js, MongoDB

AI Smart Resume System Source Code

- Built an AI-powered resume screening system using Python and NLP.
- Extracted candidate skills, education, experience, and keywords from resumes.
- Implemented ATS score calculation and job-role matching algorithms.
- Generated personalized recommendations to improve resume quality.
- **Tech Stack:** Python, NLP, Streamlit, Scikit-learn

Achievements

- Solved 300+ coding problems on competitive programming platforms.
- Participated in hackathons and coding competitions.
- Built multiple full-stack web applications and academic projects.

Certifications

- AWS Cloud Practitioner
- Python Programming
- GFG CodeJam
- Full Stack Web Development
- Flutter Development
- 10X Code Clash
